Junior web developer with a background in art and writing. Earned a certificate in Full Stack Web Development from the University of Toronto Coding Bootcamp. I am passionate for problem solving and will constantly push the boundaries of what I know and am comfortable with to get better results. Experienced in working with/leading groups of multiple people to complete projects from start to finish and achieve broader goals.

TECHNICAL SKILLS

JavaScript, HTML, CSS, Handlebars, jQuery, Bootstrap, SQL, GitHub, MySQL, Express.js, React.js, Node.js

PROJECTS

EventFinderr

github.com/Amritpal-Kaur0/EventFinderr

- Role: Front-end design, project management
- Tools: HTML, CSS, Javascript, API

Student Manager

github.com/kingrex0830/student-manager

- Summary: Web app designed to access and edit information across multiple students and classes from a sign-in profile
- Role: Front-end design, GitHub management
- Tools: CSS, Javascript, Node.js, Handlebars.js, MySQL, Sequelize

EDUCATION

Certificate, Full Stack Web Development – University of Toronto

Toronto, ON

EXPERIENCE

TRUSS BULDER, RIVARD ENGINEERED PRODUCTS

ESSEX, ON

2022 JUNE-DECEMBER

Spent six months building trusses by precisely jigging along a laser guide, setting boards in place with nails, spikes, and gang-nails, securing everything with an industrial roller, and moving it along a conveyor line to be secured and transported.

PRIVA ADMINISTRATION, CERVINI FARMS

ESSEX, ON

2021

Spent 5 months administrating Priva for a multi-phase farm and assisting with others when necessary.

During my time there, I:

1. Ensured quality time management by maintaining Priva tags and readers
2. Kept databases constantly up to date by adding or removing employees and activities as necessary
3. Provided accurate data by making corrections to labor, hours, and production statistics across 3 greenhouse locations
4. Ensured all duties were fulfilled smoothly and in conjunction with the needs of all facilities by communicating with growers, supervisors, maintenance, and HR on all of the above when necessary
